Unit 5.1

When I grow up, I want to be a paleontologist. I love dinosaurs. I'm my favorite prehistoric animal. I like to go on fossil hunting hikes with my Mom! Awesome and fun!

As teachers, I know we are always looking for easy resources that make handwriting for older students a breeze! I've put together free printable handwriting worksheets just for you! When it comes to handwriting, tracing the ABCs gets boring for kids — and us — fast. Only younger kids can tolerate tracing their ABCs. Once they reach a certain age, regular handwriting worksheets are guaranteed to elicit some groans from the classroom. I am always looking for ways to keep handwriting fun for my students, and I know I can't be the only one who struggles to do so. Most handwriting worksheets out there are so boring, they aren't even worth paying for. And even if they ARE free, most of the time they still don't reach the standard that I aim for with my classroom activities. After spending hours looking for great worksheets, I decided I had to make my own. My free printable handwriting worksheets get kids to practice their skills with engaging sentences, fun facts, and even positive affirmations! Since the practice consists of fun content as opposed to regular old ABCs, they are perfect for students from first grade all the way to sixth grade. You can get your free printable handwriting worksheets here — just print and go, absolutely no prep work required! I am all about great printable resources that make our busy lives a little easier. I know your students will enjoy these pages, and you'll pat yourself on the back for making handwriting practice fun again. Get ready for a class full of handwriting masters! Why do students need good handwriting? Even though we live in a digital age, handwriting still matters! It's especially important to teach good handwriting skills while students are in distance learning. But why exactly is it so important? Keep reading to find out why your students need great handwriting to thrive in the classroom! Handwriting greatly improves brain function in students. Maria Konnikova writes, "Children not only learn to read more quickly when they first learn to write by hand, but they also remain better able to generate ideas and retain information. In other words, it's not just what we write that matters — but how." Most of us already know that writing things by hand increases our chances of retaining that information, but the benefits go further than that. Handwriting actually activates more areas of the brain and boosts creativity. Konnikova cited a study that found that out of a group of children, "the ones with better handwriting exhibited greater neural activation in areas associated with working memory — and increased overall activation in the reading and writing networks." The research around handwriting shows it's not a skill to be forgotten, even while the world transitions to digital. Handwriting is a lifelong skill, and should be a staple in your classroom curriculum! What's included in these free printable handwriting worksheets? Every teacher loves a good freebie! These free printable handwriting worksheets include: ● 3 print worksheets ● 3 cursive worksheets ● 3 D'Nealian print worksheets ● 3 D'Nealian cursive worksheets ● Amazing tips for incorporating handwriting into your day ● PLUS, a free sample handwriting assessment from the 180 Days of Handwriting Bundle! Looking for year-long handwriting practice for older students? If you try these worksheets and love them as much as I think you will, I've got good news! You can download my 180 Days of Handwriting Bundle for handwriting practice all year long. Imagine having handwriting practice checked off your list of to-dos in one simple step. Yes, please! This year's long supply of handwriting worksheets include categories like animal facts, out of this world space facts, gross and silly facts, and positive affirmations. Each category is 20 pages long except for Silly Alphabet Sentences (there are 26 in that document — one sentence for each letter). I suggest starting with the alphabet at the beginning of the year! The bundle includes plenty of print, cursive, and D'Nealian practice. If you're looking for bundles for one kind of writing, you can click here for print worksheets and here for the cursive version! You can print out the worksheets in booklet format to hand out to your students. Print them as monthly workbooks, quarterly or semesterly workbooks, category workbooks, or simply as needed. They make great morning warm-up activities, too! Conclusion You CAN make handwriting fun for your older students! Older students tend to dislike handwriting practice, but the research has spoken — good handwriting is crucial for a student's success in the classroom and beyond. But don't worry — you definitely don't have to become the "uncool" teacher while you're getting your students the handwriting practice they need. These free printable handwriting worksheets will keep your class engaged and turn them into handwriting experts in no time! Do you have older students who could use a little extra handwriting practice? Have you claimed your free printable handwriting worksheets yet? Imagine you are an elderly person looking back on your life. Write about how your life turned out. What did you do? What are you most proud of? Do you think it is a good idea for teachers to specialize in one subject, or do you think that you should always only have one teacher per grade, even as your get older? What is one thing you have learned this year about how you do and don't want to treat other people? Explain. What are the values most important to your family? How do you know? How does your family exhibit these values in daily life? What advice have you been given by parents or other adults about how to choose your career when you grow up? How do you feel about that advice? Write a letter to your younger self, telling yourself what you wish you had known then. What do you think makes up a healthy diet? Do you eat a healthy diet? Why or why not? What do you think is the most dangerous animal on earth? Why do you think that? How is it dangerous? What do you think would happen if you encountered one? Do you think that every student should be required to participate in a sport? Why or why not? Imagine your favorite fictional character was a new student in your school. What do you think might happen? What do you think if the most important school subject? Why? When you grow up, do you want to stay in this town or move somewhere else? Explain. What quality do you most appreciate in a teacher? Why? Have you ever been told by an adult that it is bad to do something, and then seen that same adult doing it? How did that make you feel? What did you do? What is the most disappointing thing that someone that you care about has done? Why were you disappointed? What happened? Instructions For Teaching Cursive Writing Easy Cursive Writing Instructions Teaching cursive writing can be easy if you make it an adventure. Basically there are six strokes to connect letters. A short upswing. A short upswing over to two on the clock. A tall upswing. A short dip. A short dip over to two on the clock. See more instructions below. If your elementary school students already know how to write in manuscript, encourage them that writing in cursive is as easy as connecting the letters together. The rest is style. Write the manuscript alphabet on the board or a piece of paper, or some part of it. Then make the connections both on the board and in their minds by drawing the connecting strokes. That's it! Truly, that's most of writing in cursive. How To Write Cursive For Beginners With beginners or those who struggle, another idea for teaching cursive handwriting is to drag your lines on the board as you move to write the next letter in a word. Say the letter or its sound as you write the letters naming the strokes you're using. Students like seeing that Cursive is smooth and flowing. Cursive is pretty and makes fancy writing. Writing in cursive is faster than manuscript writing and doesn't use as many starts and stops. Cursive writing helps children see the end of one word and the start of the next word. What was that? Yes. Practicing cursive offers an "Aha!" moment for some reluctant readers. When they see the break between the words in their own handwriting, they often make a better association for where words start and where they end in their reading, certainly in their handwriting. -) Cursive Writing Instructions For Adults Cursive writing instructions for adults is the same as for children. A beginner is a beginner. Learning how to write in cursive as an adult can actually be easier, especially if you've been printing with an italic hand, meaning your letters already slant as if for cursive script. Best advice? Long story short? Connect the letters as you write. You can learn style as you practice writing in cursive hand. For adults who will be using these cursive script sheets print the pages "two-up" so that you can use the smaller font and less paper. No sense trudging through larger handwriting to learn cursive. It is the same for basic cursive practice sheets for older kids and high school students. Keep it short and sweet. 1. The Alphabet In Cursive Hi! I recommend products that I think will help you and your children. If you buy through my links I may earn ad commissions at NO extra cost to you. See my FTC Disclosure. (Amazon) The Writing Road To Reading Book Basically, there are five cursive strokes to add to the manuscript letters. Romalda Spalding has an excellent description in her book at Amazon, The Writing Road to Reading. In a way, this is my favorite cursive writing book as she makes cursive seem easy. The whole lesson is only six pages and can be taught in just a few classes. Truly, I've seen even small children learn to write in cursive in just two weeks using what she wrote. She taught several general rules like "All letters sit on the base line." Then she writes that you should teach the terms for the five strokes as you show how to connect the letters: A short upswing from the base line. A tall upswing from the base line. A short dip that curves over to 2 on the clock. A short dip that curves over to two on the clock. You can read more about using her book for teaching reading by teaching writing. Usually, the capital letters do not connect with the rest of a word, yet these capital letters can be connected to the rest of a word. A, C, E, H, J, L, M, N, R, U, X, Y. Z Once your students have learned both upper and lower case cursive, they can stay sharp practicing this cursive sentence with all letters present. The quick brown fox jumps over the lazy dog. 1.A. 26 Printable Cursive Writing Worksheets PDF For the Cursive Alphabet The first image can be used for crayon or finger tracing. Cursive Alphabet: Lower Case ABC Cursive Handwriting Alphabet - 5 Practice Pages Why put upper case letters first? Children often learn best what they learn first. Free Cursive Writing Worksheets Using Difficult Cursive Strokes Enter: The short dip. Many times it's hardest for children to get the idea of connecting letters that use the short dip or a connecting loop at the midpoint or midline. Staying at the mid-line is the trick, and these practice cursive worksheets are the answer. Since b and o each end at the mid-line, they are difficult letter combinations. Practicing letter combinations with this stroke makes the letters easier to form in everyday handwriting in a continuous stretch of letters. Use these free cursive writing worksheets to show your students how to write cursive letters that end with a short dip at the midpoint. See the individual pages first or download the group of five all at once at the link below the individual pages (2.F.). 2.A.
